

Language of the BIRDS

Adult Series Workshop

Lake Los Carneros

Saturday, May 9th

10am - 2pm

Sliding Scale: \$30 - \$50

**WILDERNESS
YOUTH
PROJECT**

Have you ever wondered what the crows were yelling about, why the Red Tailed Hawk was dodging a swallow or who was singing outside your window after dark?

Learning the language of the birds can be easy. Join us for a day of observing and discussing the birds in their most active time of year. Go home with strategies to help you witness more birds and understand their cues about other wildlife.

To Register:

info@wyp.org or call 805.964.8096

Dan Fontaine has participated in avian field studies and other field projects at the Channel Islands, UCSB, and sites further afield from the tropics to the arctic.
