***Cultivating Revolutionary Ways of Living from
Coast to Coast!***

The improved Earth Activist Training (EAT) Permaculture Demonstration Bus (Permibus II) is on the road, visiting communities nationwide, in order to offer you and your community practical skills to help you wrest control of your life from corporate hands. The PermiBus is a 36-foot mobile permaculture demonstration project in progress; complete with solar power, greywater system, herb garden, composting toilet, three dogs, a clutch of chickens, and a box of worms!

Our goal? To teach practical skills that make you and your community more environmentally and economically sustainable. Enjoy a tour of the permaculture systems, a permi-puppet show, and short informationals to demonstrate the simple ways folks can take fun, easy steps toward more sustainable lives.

For more info, contact the PermiBus at : (406)721-8427 skillstour@gmail.com

Local Coordinator: Janice Westlake-Haenny (805) 801-2911
