

SLO PERMACULTURE

San Luis Obispo County Community Permaculture Design Course

spring & summer 2013 offering

Workshops

May 5th

June 2nd

June 30th

July 21st

The SLO Community Permaculture Design Course (PDC) is a jam-packed 72 hours that presents Permaculture, a whole-systems design methodology for resilient communities. Based on the curriculum crafted by Bill Mollison, co-founder of the permaculture concept, the course will crack open paradigms and change world views. A holistic perspective is taught through the lens of many disciplines that sustain us and the environments we live in, such as soil, water, earthworks, agriculture, and architecture. Hands-on activities help participants build practical skills, develop resilient systems for disaster preparedness, and create money-saving strategies by reducing resource use.

Attendance Options

Full Course

Commitment to full 72-hour course
Eligible for Certification

Flexible Option

Commitment to first two sessions
Eligible for Certification
(after completing all sessions within 1.5 yrs)

Drop-in Option

Only available sessions 1-8

Pricing Options *

\$500 Total

Financial Aid may become available, inquire via email

\$150 Deposit for Sessions 1+2

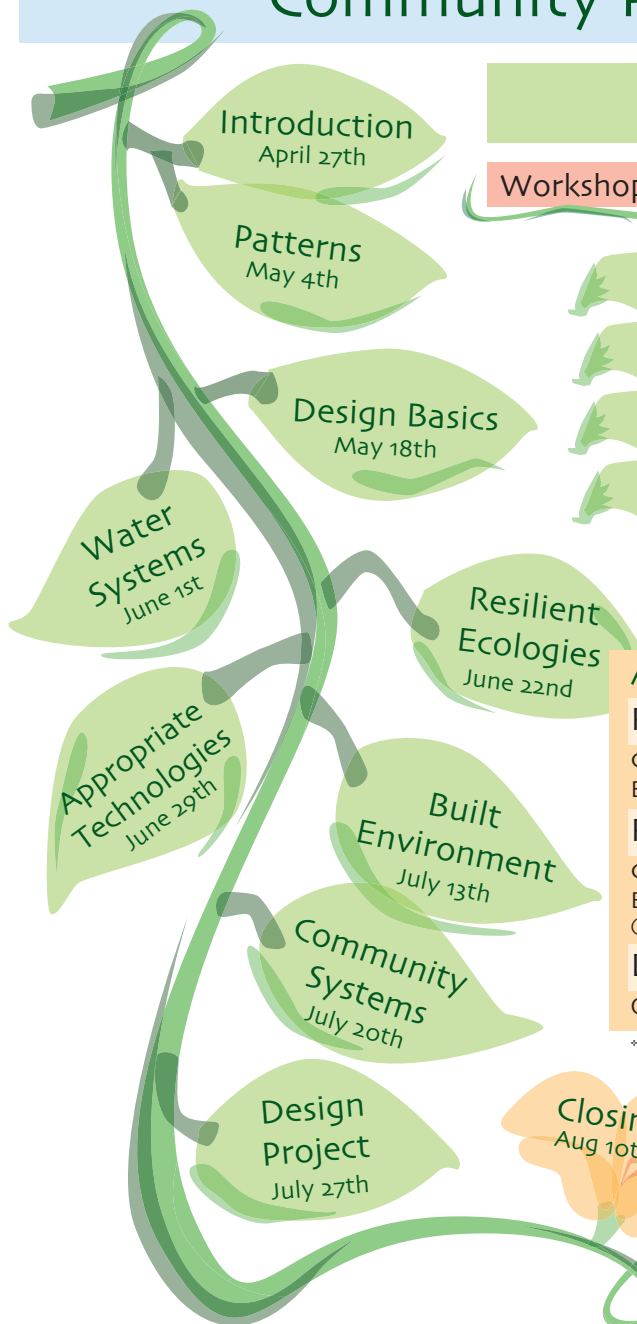

\$60/Session for Sessions 3-10

RSVP Required 2 wks in advance

\$75/Session

RSVP Required 2 wks in advance
