

**Progress Meeting: Santa Barbara Intentional Community  
Ayni Gallery ( 216 State St ), Monday Aug 9, 7pm to close**

**Host: Johnny Sacko, 333 (Triple Bottom) Ranch- Reporting on the current state of affairs of several community concepts in and around Santa Barbara**

**For the last year and a half, we've been working towards the formation of a live-in community that reflects the transition from old paradigm thoughtless consumption and isolation to the new paradigm of sharing, cooperation, local sourcing, Blue Economics, and High Spirit. And the fourth bottom line: Fun!**

**Star Riparetti is actively looking for partners and is developing a vision for the Star Ranch on Rincon Mountain. This is rapidly evolving into the obvious first project for a real living community. There are several other properties and players ready to move as well.**

- Star will present, along with other heroic celebrity communitarians, including:**
- Wes Roe, Permaculture Credit Union and South Coast Permaculture Guild**
- Ben Werner, CEO of Multi Mode, presenting Land Trust and Green Building concepts, as well as briefing on current political activity**
- Autumn Rooney, founder of Echo Park Time Bank**
- Julie Beaumont, co-founder and owner of Local Harvest Delivery, a CSA**
- Jack Reed, Consensus Facilitator and founder of Community Planet Foundation**
- more speakers TBA! Everyone interested in joining and forming living community should be there!**

**After the principals present, we will split into ad-hoc guilds and do Q&A. I hope this will result in large scale synergistic activity and translate into rapid forward motion for the formation of up to 5 aligned communities in Santa Barbara and the immediate area. Very much looking forward to seeing everyone there!**
