

WILD ROOTS FOREST KINDERGARTEN & PRESCHOOL

Wild Roots experiential early childhood programs, offer a curriculum rich in the life sciences that aims to nurture a sense of community and belonging among children, families and the land. Drawing on a deep understanding and continuous exploration of child development our small class size, high adult/child ratios, and the curriculum provide a foundation of respect for the developmental process and the unique unfolding of each child.

Wild Roots meets in local, natural spaces where our students learn to identify local flora and fauna, recognize patterns in nature, build physical prowess, and develop the foundation for lifelong learning.

We are currently accepting applications for the 2011-2012 school year. We invite you to contact us with any questions you may have and to schedule a visit.

Kindergarten -Willow Class ages 4.9-7 years Preschool -Acorn Class ages 2.9-5 years
