

EARTHWORKS FOR FARM RESILIENCE

with Warren Brush
Brenton Kelly

December 6-10, 2017
San Luis Obispo, CA

The need for people with hands-on skills in landscape restoration and drought-proofing is growing daily around the world.

WWW.PERMACULTUREDESIGN.US/RESILIENCE

LEARN ABOUT EARTHWORKS FOR:

- ECOLOGICAL FARMING
- LAND RESTORATION
- WATER HARVESTING
- EARTH REPARATION FOR BIOLOGICAL STABILITY

Whether you are working on your own landscape, farm or as a consultant, this course will grow your skills in the appropriate design and construction of structures that will reduce erosion, increase biological productivity, harvest & store water, and create resiliency in the ecologies that sustain us.

LEARN TO:

- Survey and create rainwater harvesting structures and storages
- Create and armor spillways
- Mitigate erosion including head-cuts
- Identifying and creating rainwater run-on opportunities
- and much more...
